COCOKRATONID

WHY CHOOSE US?

COCOKRATONID PRODUCTION

Our production base is located in Central Java, Indonesia. We are able to produce 200 MT/month.

We also cooperate with direct farmers from Java, Sulawesi and Sumatra to provide raw materials.

We ensure that we use high quality raw materials, precise production processes and maximum drying, and we ensure that there are no cracks on the surface of the briquettes, so the briquettes have many advantages, for example:

- ✓ Free from odor and strange taste
- ✓ No cracks and sparks
- ✓ Thin ash content and light ash color
- ✓ Long burning time and constant heat
- ✓ Flameless, odorless and smokeless
- ✓ Bright red and no black spot
- ✓ Affordable price without compromising quality
- ✓ Custom order possible to fit your needs

COCOKRATONID PRODUCTS

COCONUT CHARCOAL FOR SHISHA/HOOKAH

This product is made from 100% coconut shell charcoal from Indonesia, the world's leading supplier, which is known for its superior heat output, high calorie output, and low ash content. It is commonly used for shisha.

COCONUT CHARCOAL FOR BARBECUE

The briquettes have been designed with a relatively larger size, which results in a longer burning time. They are intended for use in cooking purposes. The briquettes are made from a mix of coconut shell charcoal and hardwood charcoal.
